

MARK SHERMAN

My Other Voice

I've been playing piano since my mom encouraged me to take lessons at age 8. Over the years, I moved onto to drums, percussion and eventually the vibraphone. But all along, it was all about the piano.

I teach at the piano, I write at the piano and I simply love to play the piano. With 10 fingers and an 8 octave range available, it gives me a different level and dimension of expression.

Making music with these incredible musicians helped me articulate my voice on piano. I present to you, and I hope you enjoy — "My Other Voice".
